Put your hands on me
(Dalai Lama)

Vanessa Carlton

I first saw you at the video exchange
I know my heart and it will never change
This temp would be alright if you'd call me

I lie awake

at night and for you

I pray

We crossed the deepest oceans To go across the sea And if you don't believe me

Just put your hands on me And all the constellations Shine down on you and me
And if you don't believe me Just put your hands on me
The summer radiates with heat
We've barely met And still I cross the street
to your door We crossed the deepest ocean To go across the sea
And if you don't believe me
Just put your hands on me
And all the constellations

shine down on you and me
And if you don't believe me
Just put your hands on...

Someday when our stories are told
They'll tell of a love like this
When our descendants are all growing old

A thousand years'll be singing
Na na na na na na
We climbed Tibetan mountains

Where we can barely breathe

I see the Dalai Lama

I feel him blessing me

And all the constellations

shine down on you and me

And if you don't believe me

Just put your hands on...

me...

Na na na na na...
Your hands on... me...

I first saw you at the video exchange
